Rifatul Islam Majumder

FULL STACK WEB DEVELOPER

I've built each website and web app with care, starting from scratch and using the graceful combination of Django and JavaScript. I lean towards keeping away from heavy frameworks like WordPress, aiming to create smooth digital experiences.

EDUCATION

Higher Secondery
Milestone Collage/School of Science
01/2018 - 01/2021   *Dhaka,Bangladesh,5.00*

Bachalor
East West University/B.Pharm
03/2021 - Present   mail:2021-3-70-096@std.ewubd.edu   *Dhaka,Bangladesh,2.65*

Current:
Seneca Collage/Biotechnology
09/2023 - Present   mail:rimajumder@myseneca.ca

WORK EXPERIENCE

Junior Web-Developer
M.H Telecom

01/2023 - 04/2023   *Dhaka,Bangladesh*
Achievements/Tasks

- Worked as a leader of a developer team several timmes
- Designed a subsequent part of backend using django

PERSONAL PROJECTS

OCR STYLE TRANSFER (05/2023 - 05/2023)

- Website to Convert Image Into Text & Text or Image Into Handwritten Pdf .
- This project has been developed a web apps for my website

Med-finder (06/2023 - 06/2023)

- Website to Get Subsequent Medicine With Diffetent Brand Name as well as with generic name. Database is only limited by the drugs of Bangladesh.
- This project has been developed a web apps for my website

CVD Prediction & BMI Calculator (06/2023 - 06/2023)

- This project was result of a renowned dataset of kagle which is used to train model on PYTORCH which achived 92% ovorall prediction accuracy on test set & bmi calculation is a refactor of NHS BMI calculator.
- This project has been also developed a web apps for my website

Diery keeper (07/2023 - 07/2023)

- This project is created a a base project for other two other projects. Where user can sore their day to day journal and edit anytime
- This project has been also developed a web apps for my website

SKILLS

Python   Javascript   Django   HTML5

CSS3   BootstrapStudio

Full Stack Web Development

Full Stack Web Application Development

Full Stack ML Based Web Application Development

Data Analysis   Pytorch   OpenCV
